

Future Lives Networking Events

Do you provide types of support and services or opportunities for meaningful activities in the community that would be beneficial for **young people with additional needs** or **adults with sensory loss** in Worcestershire?

Would you like the opportunity to talk to our **Young Adults and Sensory Impairment Teams** about the services you can provide?

Are you preparing for a future when service users can buy services directly from you?

We would like to invite those organisations who currently provide or could provide services or activities to **young people with additional needs** or adults with **sensory loss** across the county to participate in networking events with our social work teams to raise awareness of services that are available.

These networking events will support in a structured way face to face dialogue between social workers and providers raising awareness on the type of provision that is available in the district.

You are encouraged to share information on your services and especially any creative packages of support you offer.

We have arranged the following sessions:

Sensory Impairment and Assistive Technology Team

15th April 2014 at 9am – 10.30am
Perdiswell Young People's Leisure Centre
(WR3 7SN)

Young Adults Team

30th April 2014 at 2pm – 3.30pm
Warndon Youth & Community Centre
(WR4 9NX)

If you would like to attend any or all of the sessions please send an email ToUs@worcestershire.gov.uk and let us know which one(s) and we will book you a place, send you a confirmation and send you a short briefing of what to expect on the day. (We are not expecting displays or presentations so it's easy).
